

Technical Fact Sheet

NAME:

WHEEL BRIGHTENER – LOW pH (HP-460)

DESCRIPTION:

A revolutionary new product that is based on a patented process that not only provides the cleaning benefits of hydrofluoric acid but it does so with none of the safety concerns.

A safe, low-pH wheel and rim cleaner designed to clean and brighten any metallic surface. Does not contain HF or ABF.

BENEFITS:

Fast Acting: This product acts quickly, requiring very short dwell time, to maximize the removal of inorganic soils.

Safe: A unique and patented process makes this product a safer alternative for carwash employees as well as any vehicle surface.

Dual function: Both cleaning and brightening of metallic surfaces can be achieved when the product is used at recommended use dilutions.

EcoLogo[™] Certified: In order to promote the use of more environmentally responsible products and services, the Environmental Choice[™] Program was established in 1988. The Environmental Choice[™] Program is Canada's only national and comprehensive eco-labeling program. The **EcoLogo[™]** is the recognized seal of approval of the Environmental Choice[™] Program.

PACKAGING:

A 5-gallon plastic carboy.

DILUTION:

Direct Feed: Apply 0.5 to 1.0 ounces (15-30ml) of product per vehicle. This is based on 2.5 gallons of water per vehicle. **The target dilution is 8:1 to 25:1. This should be applied under low pressure.**

NOTE: Consult your local Turtle Wax distributor for complete information on the wide range of dilution options for this product. Actual dilution or chemical usage may vary based on desired results.

SPECIFICATIONS:

Appearance:	A pink liquid
Fragrance:	N/A
pH:	< 1.5
Density:	9.1 lbs/gal
Emulsifier:	Anionic/Nonionic
DOT Labeling:	Corrosive, PG III
