Technical Fact Sheet

NAME:

FOAMING SEALER WAX (HP 73)

DESCRIPTION:

A concentrated liquid foaming wax designed for self-serve car wash applications through high-pressure wands, and now it's concentrated for easy use.

BENEFITS:

Effective: Hydrophobic Agents (water repellents) plate out on the metal surfaces of the car to seal out water, weather, salt, and dirt and protect your car's finish.

Substantive Surfactants: A special blend of substantive surfactants and wax are blended with amphoteric and nonionic foamers that cause the waxes to bond stronger and last longer. These surfactants are all biodegradable.

Concentrated: One five-gallon carboy seals up to 2500 cars.

Glass Protection: This product contains no silicone and is not substantive to glass. It won't smear on windows.

EcoLogo[®] Certified: In order to promote the use of more environmentally responsible products and services, the Environmental Choice[®] Program was established in 1988. The Environmental Choice[®] Program is Canada's only national and comprehensive eco-labeling program. The **EcoLogo[®]** is the recognized seal of approval of the Environmental Choice[®] Program.

PACKAGING:

A 5-gallon plastic carboy.

DILUTION:

Dilute stock solution (1:472 to 1:378) and apply 60 ounces per cycle minute, or apply 4-7 ml (1/8 - 1/4 oz.) of Hyper-Concentrate per cycle minute.

NOTE: To achieve these dilution rates, a special double tip assembly will be required. Contact your local Turtle Wax Distributor for more details. Actual dilution or chemical usage may vary based on desired results.

SPECIFICATIONS:

Appearance:	Clear yellow thin liquid
Fragrance:	Lemon citrus fragrance
pH:	7.5
Density:	7.84 lbs/gal
Emulsifier:	Cationic/Nonionic/Amphoteric
DOT Labeling:	Flammable (PG-III)
